INTRODUCTION

We are witnessing a phenomenal change in the education scenario. The change has been both in terms of the content as well as the reach. The trend has been to instill the element of excellence in every field. The best in every field of knowledge is being made available for the progress of the country.

We are aware of the need for country to make her knowledge based super power in the next decade or two. With in vice we have stepped in to meet the present day Academic milieu for the students and have taken a step by giving birth to "BODOLAND PARAMEDICAL COLLEGE".

ABOUT ACADEMY

Our statements "A strong imagination and determination create opportunities" reflects our understanding and beliefs. Our Academy empowers all students to embrace learning, achieve their personal best and build their emotional social and physical well-being. We strive to consciously create an environment of respect and inclusion and to support ethnic, racial, religious and socio-economic diversity among all the constituencies of the academy. We strive to support this environment by building a more inclusive curriculum, addressing a range of learning styles offering a wide array of diversity efforts and programmes, and by participation in the wider community.

PRINCIPAL DESK

With the advent of Medical based technology, as we move into a boundary-less and inter-connected world, the common phrase 'sky is the limit' seems a bit of a cliché, since the quantum of success has grown in manifold. With success comes the attitude towards winning and spirit of achievement; and education should aim towards preparing the mind-set for excellence. Excellence can be achieved in various fields depending on the student's capacities and capabilities. The syllabus must be enriched by incorporating a good pedagogy and integrated programmes to create learning experiences and right interpretation of facts. Experiential Learning, to me, is the key to quality education.

Finally education is all about providing the specialized skills and negotiating tools to the coming generation that can be used constructively for the betterment of mankind.

Principal

Mr. Ashim Roy, M.A, English
Bodoland Paramedical College
